Date: March 19, 2007  
To: L-3 Combat Propulsion Systems Vendors  
Subject: ERP System Conversion – Purchase Order Modifications

L-3 Communications Combat Propulsion Systems will be launching a Visual Manufacturing ERP system on Monday, April 2, 2007 to replace our existing MRPII system

This letter specifically addresses the changes regarding open Purchase Orders. Please refer to the enclosed Accounting letter for further information relative to Accounts Payable.

- 1) Effective Friday, March 23, 2007 at 2PM, deliveries will be no longer be received in the existing MRPII system. This may also affect product that had been delivered but not yet received.
- 2) Product delivered after the above conversion date will be received utilizing the Visual Manufacturing ERP system. The Purchase Order number will not change though a revised Purchase Order Line Item for undelivered product will be utilized to properly align to the ERP accounting system.
  - a) L-3 CPS buyers have attempted to realign most open MRPII Purchase Orders with a supplement identifying the new line item identification.
  - b) Purchase Orders that were not realigned with a supplement, the supplier will see a payment but to a line item other than what the supplier packing slip may show.
- 3) Visual Manufacturing ERP System Purchase Orders will have a revised format though containing the same information as on current MRPII Purchase Orders. Effective 2 April, all Purchase orders will be issued in this new format.
- 4) All other aspects will remain unchanged, reference [www.L-3com.com/CPS](http://www.L-3com.com/CPS) Website (i.e. Quality, Shipping, Packaging, Terms and Conditions, etc).
- 5) The existing buyer will not change under the Visual Manufacturing System and any questions you may have should be directed to them or myself at 231-724-2925

Sincerely

Jeanette Nauman
