

OUR SATELLITE CONTROL TECHNOLOGY IS BREAKING NEW GROUND. (WELL, SPACE ACTUALLY.)

InControl
Satellite Command &
Control Software

L-3 Telemetry-West offers the industry's leading satellite command and control software, InControl™ — providing real-time information for complete control of your fleet.

And with more than 300 space products placed in orbit, we have a demonstrated track record of performance in space-qualified hardware to meet your mission's needs.

To learn more about InControl, please visit L-3com.com/TW/InControl, and for more on our space hardware products, visit L-3com.com/TW.
